Tribune Editor Reminded

Today reminds us of the fickleness of summer and the sure coming of winter. It further reminds us of the monotonous duty of lugging wood and coal from the fuel bin to the dear old stove in the "setten" room around which grandma and the rest are seated with deepest satisfaction, the grown-ups to read the papers and discuss the neighborhood happenings and the kids, part of them, studying "readen, ritten, and rithmetic," while the rest are making loud and boisterous noises to the utter discomfiture of the rest. But, we get used to it you know."
